ANATOM 32Fit VET

Premium care for our companion!

Presently, the number of households owning pets are growing steadily. Countless pet clinics are in need of reliable and affordable diagnosis and treatment solutions. ANKE's ANATOM Vet CT Solution, empowering veterinarians by delivering high-efficiency workflow and closer care for pet patients. Stay with ANKE, unlock the future of veterinary diagnosis.

Professional Vet Scanning Workflow

Professional Vet Scanning Workflow

Exceptional Image Quality

Durable and Low-dose Platform

Boost Efficiency with Cost-effective

Designed for Vet: Customized UI simplifies veterinary operations

Scan multiple pets: Professional scanning protocols cover all common pet companions

Scan with ease: Quick selection of scan areas streamlines workflow

Durable and Low-dose Platform

New Generation OptiWave™ Detector

32 rows/32 slices

- Higher X-ray utilization for high-definition imaging
- 10-year signal attenuation $\leq 8\%$, ideal for long-term use needs

Large Tube Heat Capacity

3.5 MHU

- Longer continuous single-scan time
- Higher scanning throughput
- Durable components with extended lifespan

Large Output Power

42kW

- Versatile voltage and current selection
- Flexibility with multiple scan protocols
- 70kV makes low radiation possible

Exceptional Image Quality

Admir^{3D}

Iterative Reconstruction Technology

Admir^{3D} applies mathematical and physics models to accurately construct and describe the signal's quantum characteristics. Iterative operations are performed in the three spaces of raw data, projection and image, to greatly reduce the image noise and achieve optimal image quality with low dose.

Exceptional Image Quality

Accu Image

Reconstruction Technology

Enhance your diagnosis with our 1024x1024 reconstruction matrix, providing sharper and clearer imaging for reliable early detection, diagnosis, and treatment of diseases.

512

1024

Exceptional Image Quality

Abast

Bone Artifact Suppression

Eliminates the bone and metal artifacts, bringing a clearer diagnostic experience.

Amast

Metal Artifact Suppression

Accidental swallow

Fracture treatment

Implant placement

Comprehensive Clinical Application

Hip Joint - 2D

Hip Joint - VR

After Steel Nail Surgery

Spine - CPR

Shoulder Joint - VR

3D Bone of a Pregnant Cat

Comprehensive Clinical Application

3D Lung

Liver Tumor Enhancement

Abdominal Enhancement

Abdominal Mass

Tumor Vessels CTA

CTA

Boost Efficiency with Cost-effective

Purchase

An economic product specially designed for vet

Streamlined workflow improves the operational efficiency and profitability

After-sales

Equipped with the world-class high-end mainly components

With long lifespan and high efficiency

Facility

Installation space less than 18 m²

Minimize installation expenses

Running

Low total power consumption

AccuSaving: energy saving technology

All-around Service Support

01

Service response within 24 hours

02

Spare parts backup and fast delivery

03

Efficient service network, 200+ service engineers
